SUMMARY

Detail-oriented Software Developer with practical experience in developing full stack web and mobile applications using React.js, Node.js, and Flutter. Proficient in API integration, database integration, and building secure, scalable, and user-centric applications.

EXPERIENCE

Software Programmer

KnowledgeQ Interactive Consultancy Pvt Ltd (Coimbatore)

June 2025 – May 2026

Key Responsibilities & Achievements

- Developed responsive web and mobile applications using Flutter, React.js, and Node.js.
- Integrated REST APIs for seamless frontend-backend communication.
- Built and implemented real-time projects with scalable architecture.
- Designed dynamic user interfaces to improve user experience and engagement.
- Managed backend development, database integration, and performance optimization.
- Successfully delivered full-stack projects, enhancing operational efficiency and application reliability.

Experience in projects

1. CRM Application

- Developed and maintained a centralized CRM system to manage customer data, sales processes, and internal operations.
- Built responsive web and mobile interfaces for efficient user interaction and seamless navigation.
- Implemented role-based access control to ensure secure handling of user data and system functionalities.
- Designed and integrated RESTful APIs for smooth communication between frontend and backend systems.
- Optimized database queries and backend logic to improve application performance and scalability.
- Handled real-time data updates and ensured data consistency across multiple modules.
- Collaborated with cross-functional teams to gather requirements and deliver scalable solutions.
- Performed debugging, testing, and performance tuning to enhance overall system reliability.
- Ensured application security by implementing authentication and authorization mechanisms.

2. Fintech Application

- Developed a fintech platform for payment processing, cash flow management, and business operations.
- Implemented Role-Based Access Control (RBAC) to manage user permissions and secure workflows across the system.
- Integrated payment gateway services to enable seamless and secure financial transactions.
- Built secure backend services with proper database integration for reliable data handling.
- Designed responsive user interfaces to ensure smooth and efficient user experience.
- Added utility payment features and financial automation to improve transaction efficiency.
- Implemented transaction flow management to handle both small and high-volume payments effectively.

EDUCATION

Bachelor of Computer science

Bharathiar University | Government arts and science college, Sathyamangalam.

Jun 2021 - Jun 2024

TECHNICAL SKILLS

Frontend Development: HTML, CSS, Bootstrap, React.js, Flutter, JavaScript, TypeScript, Dart

Backend Development : Node.js, Express.js,

Database Management: MongoDB, MySQL Workbench

Tools & Technologies: Git, REST APIs, JSON, Axios, JWT Authentication
